News from InfoFit

correction MAXQDA • p. 5
Citavi web • p. 5
Opening hours change of year

The University Library will be closed from 23.12.2021 to 04.01.2022. Up-to-date information can be found on our website. From 05 to 07 January we will be open from 12 pm to 6 pm.
Moodle

The university library is also represented on Moodle.
You can find the library course at:
https://bit.ly/3GLJDju (you will find the enrolment key in the text there).
This course is constantly being adapted and provides bundled information about the various services offered by the University Library.
In the coming year, you will also find an InfoFit course on Moodle.

Borrowable equipment

You can borrow the following equipment for use within the University Library:
- USB C cable
- Lightning cable (Apple)
- USB Micro cable
- USB adapter
- Portable DVD Player
- Notebook Locks
a look ahead to 2022

New lending function - RFID

In the last few weeks, the freehand stock (approx. 68,000 media) has been equipped with so-called RFID labels. This enables a modern form of media lending and return.

From January 2022, there will be a self-check-in machine on the ground floor of the University Library for independent borrowing, returning and renewing of media. The staff at the lending and information desk will continue to be there for you as usual.

New Library Catalogue - EBSCO Discovery Service

In the last few weeks, the freehand stock (approx. 68,000 media) has been equipped with so-called RFID labels. This enables a modern form of media lending and return.

From January 2022, there will be a self-check-in machine on the ground floor of the University Library for independent borrowing, returning and renewing of media. The staff at the lending and information desk will continue to be there for you as usual.
Correction MAXQDA

In our second-to-last newsletter, we reported that you have full access to the MAXQDA software.

You can borrow the software for 6 weeks via the ITSZ page.

Citavi Web

From 01 January 2022, you will be able to access Citavi Web with a full licence.
Until then, use is possible via a test account.
