

## **Declaration of consent regarding the automatic retrieval of the certificate of performance by the scholarship coordination office**

In order to guarantee comparability of performance in the selection procedure, only **transcript of records with an issue date of 10.12.2021 and examination results including the summer semester 2021** will be considered. In order to be admitted to the application procedure, you must declare your agreement that the Scholarship Coordination Office may retrieve your certificate of achievement from the Examination Office on 10.12.2021. Please check your grades in advance in "My EMMA" for correctness and completeness and contact the Examination Office at [noten@hnee.de](mailto:noten@hnee.de) if you have any questions.

Please note that only corrections entered in EMMA before 10.12.2021 can thus be taken into account.

### Note for applicants from the Bachelor's programmes Forestry and International Forest Ecosystem Management:

Due to curriculum-related reasons, the required certificate of performance may be incomplete as multi-semester modules may still be ongoing. You may therefore also enclose with your application a list of all graded courses in multi-semester modules up to and including summer semester 2021 (including the German course designation and number, assessment and ECTS credits) which are not yet included in the certificate of performance. The list requires prior confirmation by the examination office. The selection committee will take this document into account in addition to the above certificate of performance.

I, \_\_\_\_\_ (full name in block letters), hereby declare my consent to the automatic retrieval of my transcript of records from the Examination Office for my application for an HNEE-Deutschlandstipendium Scholarship for the funding period 1 March 2022 to 28 February 2023.
